OVERVIEW

Computer Science undergraduate with hands-on experience across data analytics and business intelligence. Proficient in SQL, Python, and Power BI, with expertise in dashboards, data handling, reporting, and application development. Strong analytical mindset with the ability to learn quickly and adapt to different technical roles.

SKILLS

- **Programming & Data:** Python, SQL, DAX (Basic), Excel
- **BI & Analytics:** Power BI, Qlik Sense, Microsoft Fabric, Data Visualisation
- **Web Technologies:** Django, React.js, JavaScript, HTML, CSS, REST APIs
- **Databases:** PostgreSQL, Oracle SQL
- **Tools:** Git, GitHub, Jupyter Notebook, Figma
- **Soft Skills:** Problem Solving, Analytical Thinking, Communication, Teamwork, Time Management

EXPERIENCE

Data Analysis Intern, Anatabiz Private Limited (On-Site)

May 2025 - Dec 2025

- Supported analytics and reporting projects within the Professional Services team
- Assisted in developing and maintaining BI dashboards and reports
- Cleaned, validated, and transformed structured datasets
- Worked with SQL and Excel for analysis and reporting
- Gained exposure to end-to-end analytics workflows and business use cases

EDUCATION

Bachelor of Technology (Computer Science Engineering)

LJ University, Ahmedabad | CGPA: 7.25 | 2022 - Present

Higher Secondary Education

Divan Ballubhai School

HSC (2022): 53.78% | SSC (2020): 92.85%

PROJECTS

Government-Facing Analytics Project (Team Project)

Tools Used: Power BI, Data Modeling, DAX (Basic), Dashboard Design

- Developed Power BI dashboards for presentation to government stakeholders
- Worked on UI design, measures, filters, and interactive visuals
- Focused on clear, decision-oriented reporting

Pharma Analytics Project – Drug Production & Quality Monitoring

Tools Used: Microsoft Excel, Power BI, Qlik

- Analyzed pharmaceutical production, quality control, and inventory data
- Built dashboards to track defects, batch performance, and timelines

J.A.R.V.I.S - AI Assistant (Academic Project – Artificial Intelligence)

Tools Used: Python, Speech Recognition Libraries, Text-to-Speech, Automation Logic

- Built a Python-based AI assistant with voice command functionality
- Implemented speech recognition, text-to-speech, and automation logic

Blogging Platform – Data-Driven Web Application

Tools Used: Python, Django, React.js, APIs, SQL

- Developed a Django and React-based blogging platform
- Designed database schemas and REST APIs
- Used SQL for trend and category-based analysis

ADDITIONAL EXPERIENCE

- SQL Concepts Training using Oracle Database (Sathish Yellanki)
- Smart Bridge IoT Project – Sensor-based crowd control system
- Cybersecurity Workshop – Ethical hacking and security fundamentals

CERTIFICATES

- [Building Generative AI-Powered Applications with Python](#) - IBM
- [Exploratory Data Analysis for Machine Learning](#) - IBM
- [Qlik Sense - The Complete Practical Course](#) - Paul ScotchFord
- [Data Warehouse - The Ultimate Guide](#) - Nicolai Schuler
- [Database Design and Basic SQL in PostgreSQL](#) - University of Michigan
- [HTML, CSS, and JavaScript for Web Developers](#) - Johns Hopkins University
